

# BUMPER YIELD-Mango

## Introduction

Variable temperatures/weather conditions during spring and start of summer reduces crop growth and development as well as their ability to uptake nutrients. Growth development of any plant from seedling to the flowering stage is extremely important as this period determined final yield potential of the crop.

A well-balanced fertilizer/supplement program at early, critical, growth stage helps preserve yield potential of crop and helps in mitigating environmental stresses. Keeping in view of these facts the Agrisol designed the product BUMPER YIELD-Mango to combat stresses at critical stages of growth.

BUMPER YIELD-Mango is a low salt index liquid fertilizer supplement that combines the ESR Technology (Extreme Solubility and Release) with a well-balanced micronutrient package. Use of this product boosts the metabolism of the plant when applied at the critical stages.

## Benefits

- BUMPER YIELD-Mango improves the plant's metabolism, which leads to a stronger healthier plant.
- Increases root development and soil nutrient uptake.
- Enhances stress tolerance under extremely harsh environmental conditions.
- Leads to a faster recovery from stress and helps prevent maturity delays.
- Induces the production of Antioxidative substances assisting the plant when under stress.
- Compatible with most pesticides

## Product Characteristics

**Appearance:** Light brown liquid  
**pH:** 2.0 – 3.0  
**Specific Gravity:** 1.15 g/ml

## Guaranteed Minimum Analysis

Iron (Fe) EDTA	2.0 %
Copper (Cu) EDTA	0.5 %
Manganese (Mn) EDTA	1.0 %
Zinc (Zn) EDTA	2.5 %
Boron (B)	0.5 %

## Ingredients

Iron (Fe), Copper (Cu), Manganese (Mn), Zinc (Zn), and Boron (B) from organically and EDTA chelated sources.

## Direction of Use

We recommend its use for all crops at flower initiation stage.

We recommend 2-3 applications from flowering to fruit formation stage.

- Apply 1-2 L/acre
- Can be used alone or in combination with pesticides.

**Note:** Add BUMPER YIELD-Mango to the water before adding the pesticide when tank mixing.

## Packaging Sizes

10 L, 205 L, 1000 L.

## Storage & Cautions

- Shake well before use.
- Store Product in a cool and dry place in original container.
- Test compatibility with other products prior to use.
- Avoid contact with skin & eyes and inhalation of spray/dust.
- Recycle container in accordance with federal and provincial regulations.
- Keep product out of reach of children.

## Conditions of sales and limitations of Warranty & Liability:

There are no implied warranties of merchantability or fitness with respect to the product, nor are there any expressed warranties other than as many be contained in any guaranteed analysis that may accompany the product. Seller shall not be liable for any special indirect, incidental or consequential damage or expense of any nature, including but not limited to lost products, property damage or Seller's liability is limited to refund of purchase price as per return policy of company.
