

Introduction

Calcium is a primary constituent of all cell walls and membranes. Restrictions in the availability of Calcium will adversely affect cell division, impair the structural stability and the permeability of cell walls. Calcium enhances storage life of fruits and improve tolerance against blooms end rot in tomatoes.

Liquid O-Cal is Input Approved by **EcoCert** for organic agriculture operations. It contains 5.0% Calcium and specifically formulated for use as a foliar fertilizer. It can be applied to all fruit and vegetable crops to improve fruit firmness, storability, color and skin finish. In addition to Calcium, O-Cal provides essential organic acids & other supplements for better plant growth and development. Regular use of O-Cal in tomatoes & peppers helps fight Blossom End Rot.
